Bodies, Freedoms and Youth Culture in New Zealand, 1890 – 1940

Young people led deeply contradictory lives in New Zealand at and after the turn of the century. This presentation maps out aspects of this complexity in relation to bodies, sociability and freedom. It begins with James Belich's concept of the 'tight society' before considering how written and visual records reveal a youth culture that was simultaneously controlled, coalescing and liberalising in the decades before the Second World War. This is both a short prehistory of the idea of the New Zealand teenager and an exploration of the ways new norms and technologies – including the camera – helped to shape and reflect a sophisticated set of social changes.
